Our GoMart Strategy Guidelines have been created to capture our proposition to consumers and how we deliver it, to ensure that a strong and consistent GoMart brand is built and maintained over time.

These guidelines will provide you with clear directions and all the tools required to successfully express and grow the GoMart brand as a routine grocery shopping platform.

01

**Our Proposition:
Effortless
Grocery
Shopping**

**You can't
shortcut
care...**

**...but you
can shortcut
groceries**

Who

Our primary and secondary audiences

Meet our Target Audience:

Competent Consumers

They are Groceries Masters: smart and savvy

“Shopping for groceries is a mission. I always plan ahead to make sure I get the exact products I need, from the right merchants, at the best price”

Achievers

Experts at executing their plan, skillful at obtaining the best value and savings

Knowledgeable

Know when, where, and how to get the right brand, product, and quality at the right price

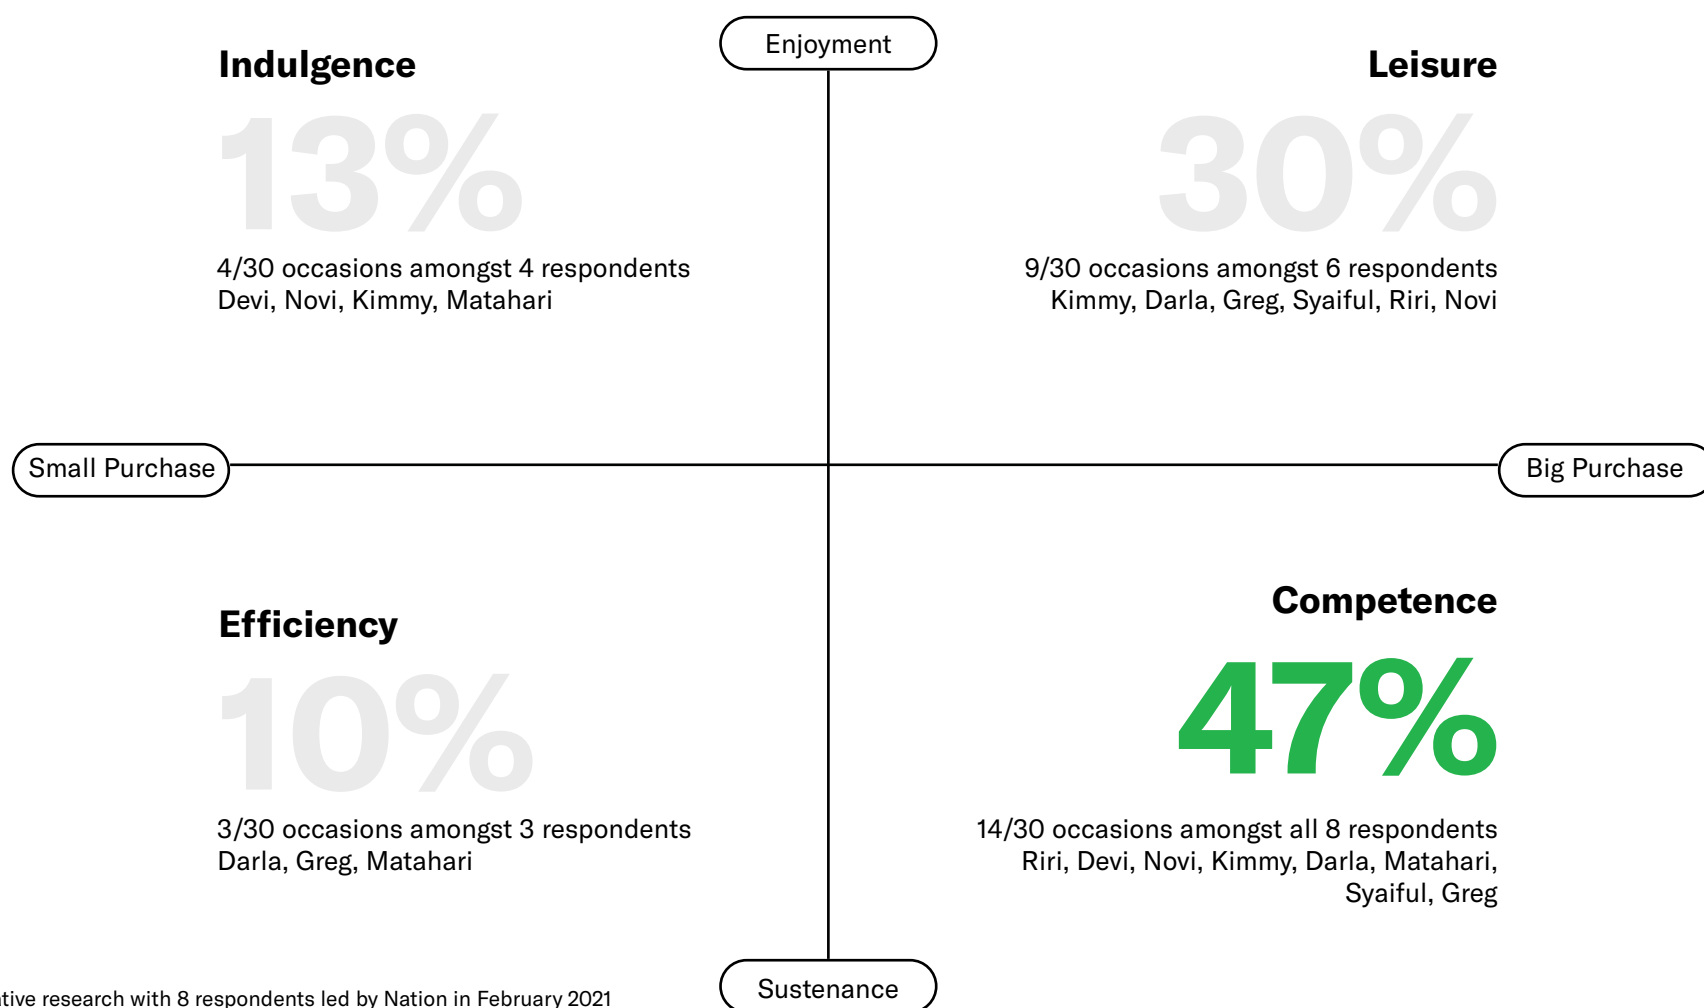

Planners

Spend time and effort building the perfect shopping plan

Competence is a state of mind

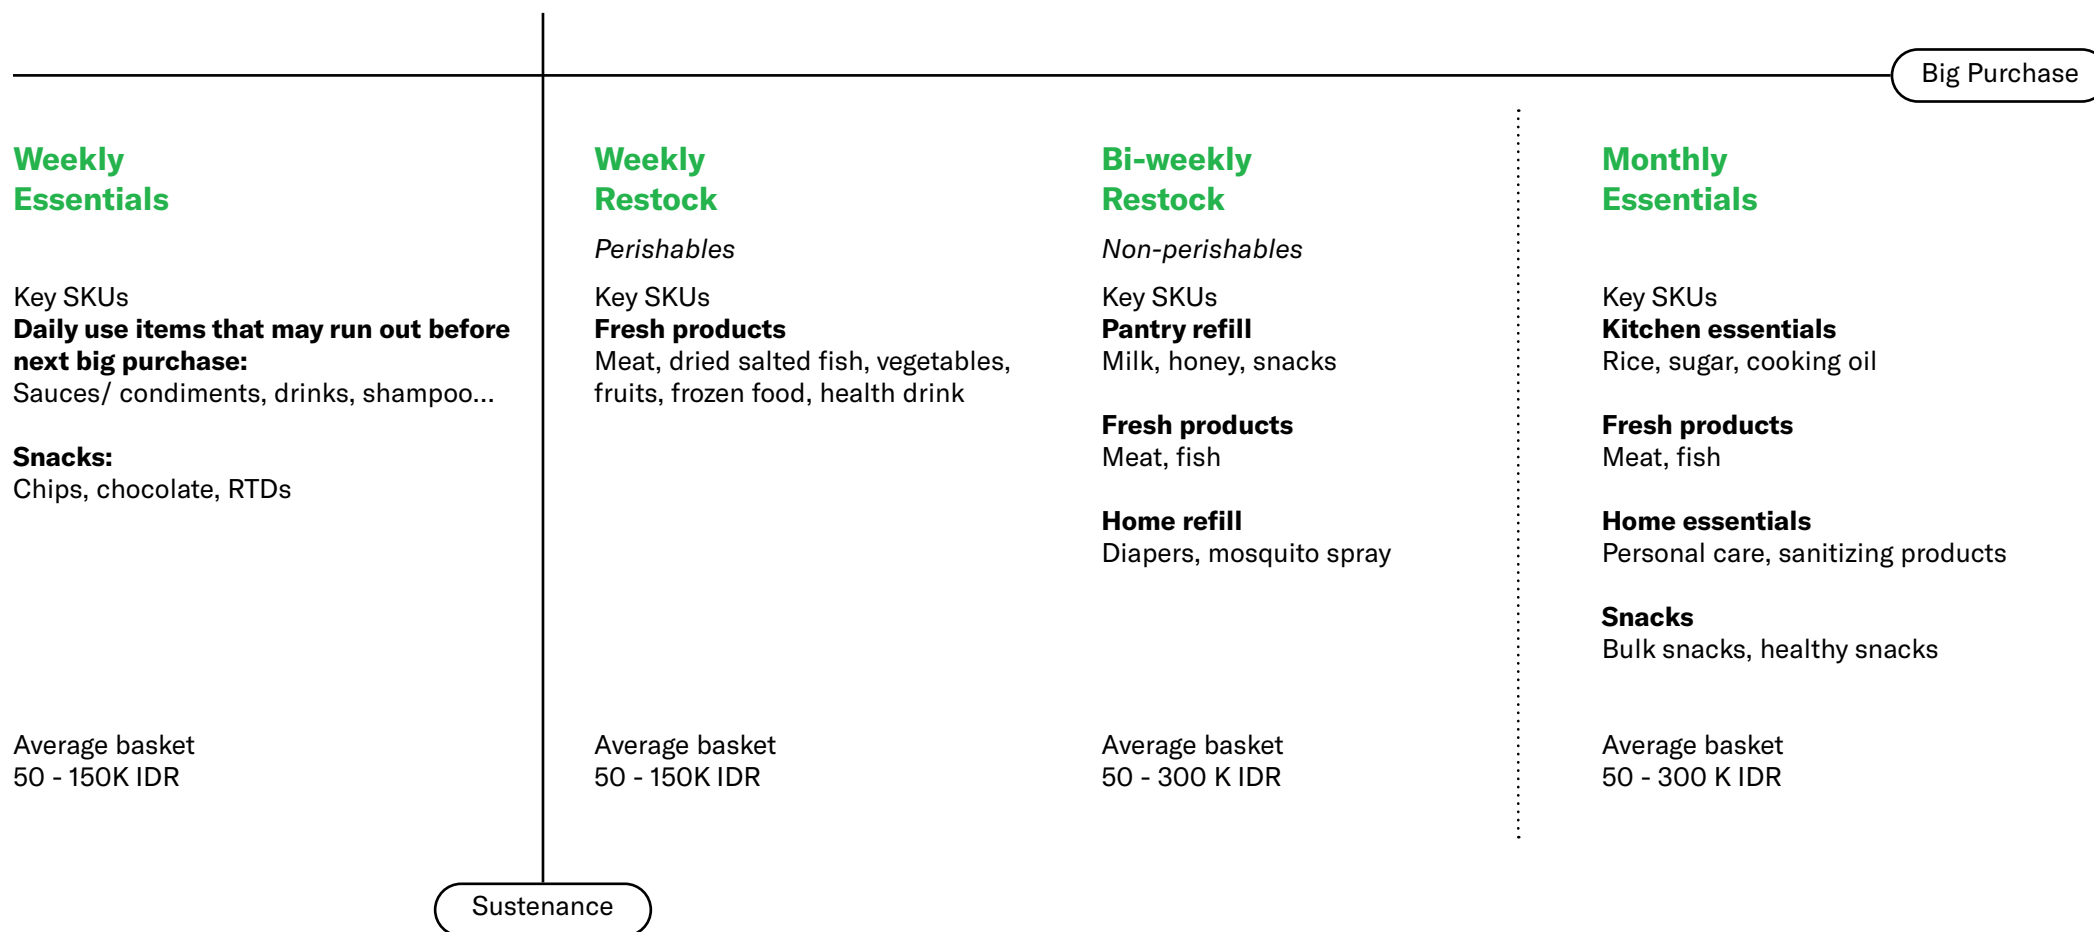

It makes up for nearly half of grocery shopping occasions and is prevalent among all profiles: primarily married, with kids but also single living with family

*25-40 years old, SEC AB, professionals or homemakers

*Based on a qualitative research with 8 respondents led by Nation in February 2021

Four key groceries occasions to deliver to

Ultimately, Their Mission is:

To care for their household the best they can

Primary Audience

Married with or without kids

Greg, married with no kids

is an attentive husband: **he spares no effort in selecting** the exact personal care products required by his wife, so she is always happy and satisfied

Kimmy, married with kids

goes to **great lengths to find the best quality ingredients** and the freshest products to ensure her children get the nutrients that they need

Secondary Audience

Single, living with family

Riri, single living with family

makes it a point to get her mum's **preferred detergent brand and variant**. The whole family loves that familiar scent when their clothes are freshly cleaned

Hence, What They Need is:

A platform that enables them to become a master at groceries and achieve their mission successfully

What, Why

The Insight, Proposition, and Benefit

Insight

Caring for my household demands time and effort.

So when I shop for groceries, I plan perfectly so I can get it done efficiently.

But stores/platforms are messy, unintuitive, and full of friction. They don't help me streamline the process.

Greg is a caring husband and a diligent grocery consumer

Category	Items	★ Brand	Substitute	Price
Pantry Essential	white rice 5 kg	Golden Farmer	Yogya	Y
	soy sauce 250 ml	Bango	Yogya	Y
Fresh fruits & vgs	spinach 200 gr	Organic	Pasar Modern	P
	mushroom	Organic	Sayurbox	S

He and his wife plan their grocery trips expertly and in great detail in order to execute them seamlessly

Yet existing platforms add complexity rather than streamline, compromising the overall success of Greg's mission

Proposition

GoMart, you can't shortcut care, but you can shortcut groceries

Using data and the most intuitive product experience to streamline groceries so you can shop effortlessly

GoMart understands the importance of taking care of your family. We also understand that doing so, is not easy

The way stores and platforms are built creates more frictions rather than removing them

So, we've streamlined grocery shopping for you

Benefit

Functional: Saving your time, energy, and headspace for what truly requires your personal touch

Emotional: The freedom to care for your family

Some things you can't just hack your way through..

While for some other things, you really should..

So you can spend time and energy for what truly matters

On what truly requires your personal touch

How

**Essential pillars we must build
in order to tangibly deliver our
proposition, Brand Key**

3 pillars and the ideal products we must build to deliver an effortless shopping experience

1 Autonomous platform

An intuitive and frictionless experience, requiring minimum steps to complete orders

2 Effective Communication

Seamless shopper-consumer-driver communication and monitoring

3 Maximized Value

Getting the most for the least, while saving your time and effort

In the pipeline

Innovation ideas

1 Autonomous platform

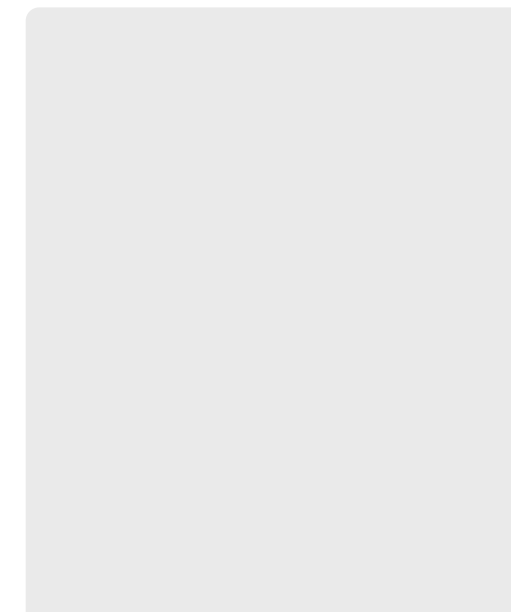

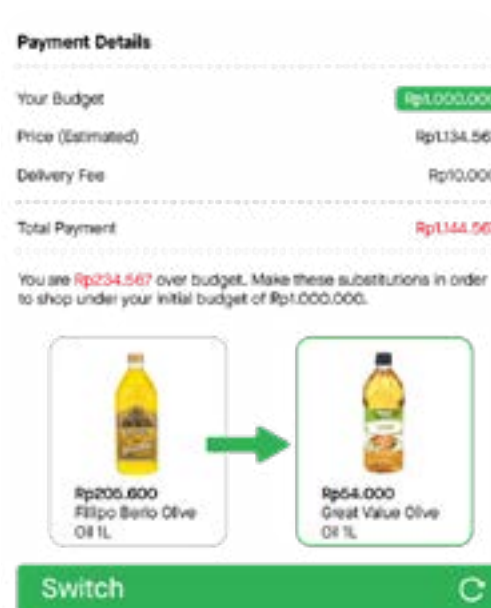

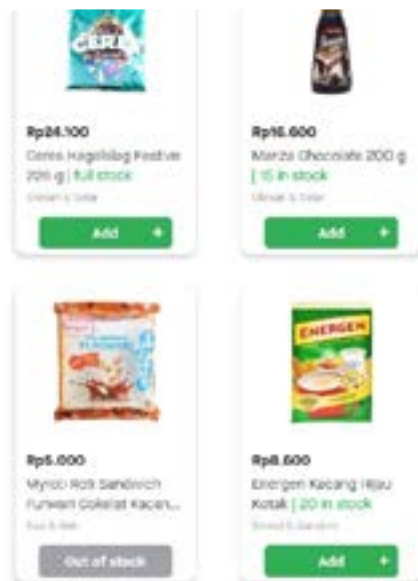

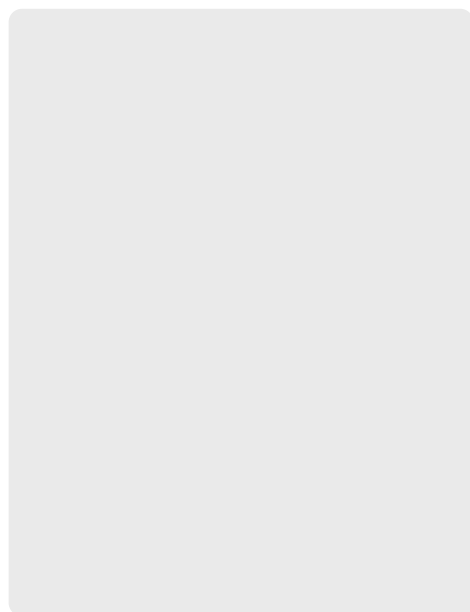

An intuitive and frictionless experience, requiring minimum steps to complete orders

Shortcuts to discover and Search relevant products

A frictionless cart experience from Add to Cart to Delivery

Advanced tools to aid Smarter Shopping

Shopping list feature to make order/re-order/ replenishment brainless

● e.g. personalized recommendations, customized categories

● e.g. EIM integration to minimize out of stock cases

● e.g. price or product optimization/recommendations

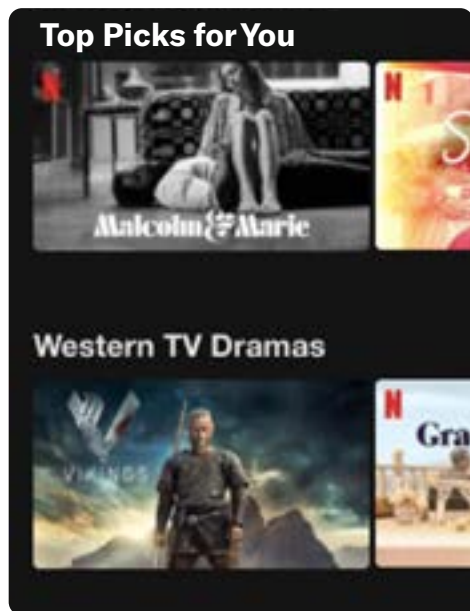

● e.g. time-based shopping list feature (monthly, weekly, daily, etc)

Out-of-category Inspiration

1 Autonomous platform

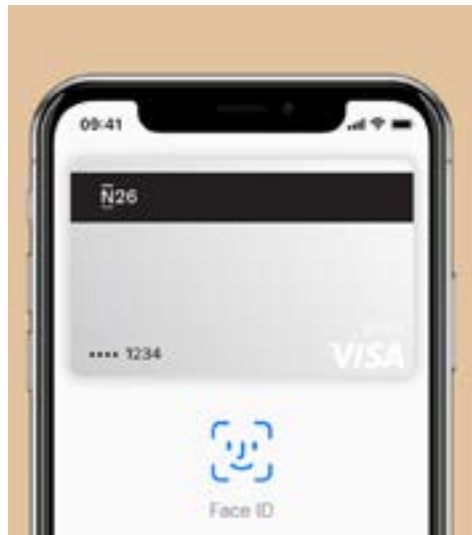

An intuitive and frictionless experience, requiring minimum steps to complete orders

Netflix Movie Recommendations

Shortcuts to discover and search relevant movies

Apple Pay's Face ID

A frictionless shopping experience, specifically in payment

Google Map's rerouting suggestion

Advanced tools to aid smarter navigation

Amazon Dash

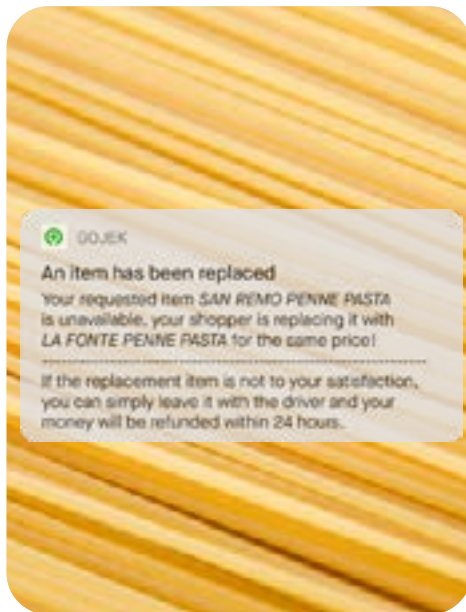

Making order/ re-order/ replenishment brainless

2 Effective Communication

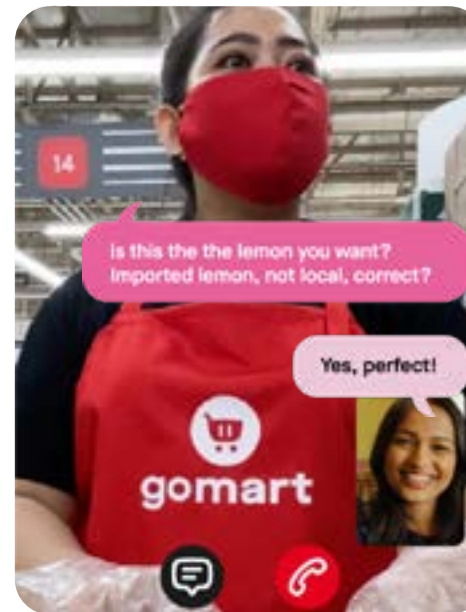

Seamless shopper-consumer-driver communication and monitoring

Minimal coordination during actual shopping time

- Pre-checkout presets for preferences, replacements, etc.

Effective communication to avoid several / lengthy notes

- e.g. Video call, send pictures

An informed shopper that can make personalized decisions/ recommendations

Hi Customer,

Avocados is currently in season, they look ripe and delicious! I've noticed that you often have it in your basket. Would you like me to add 1kg of avocados to your cart for IDR 27,000?

- e.g. Aiding shopper by providing replacement recommendations based on consumer's history, preferences

Out-of-category Inspiration

2 Effective Communication

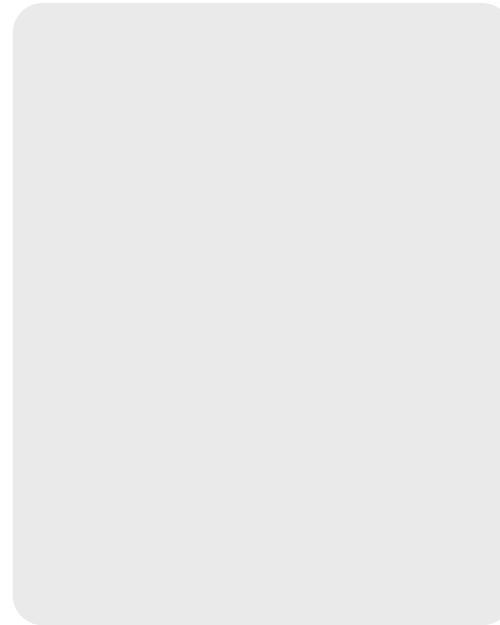

Seamless shopper-consumer-driver communication and monitoring

Tokopedia's delivery

'Order & forget', little-to no coordination necessary after check-out

Emojis

Effective communication to avoid lengthy texts, or chats

Gojek / GoCar driver equipped with proper navigation

An informed driver that can choose the best route autonomously, no need to be directed

3 Maximized Value

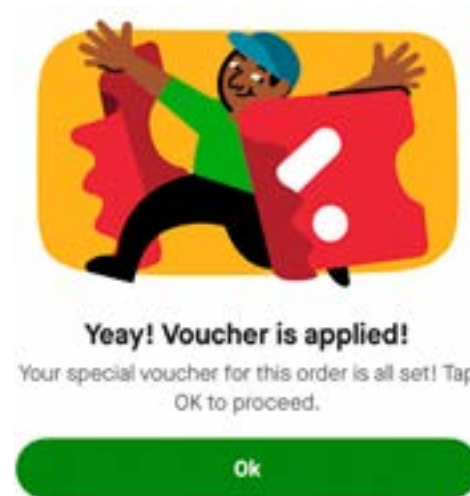

Getting the most for the least, while saving time and effort

Direct access to relevant promos

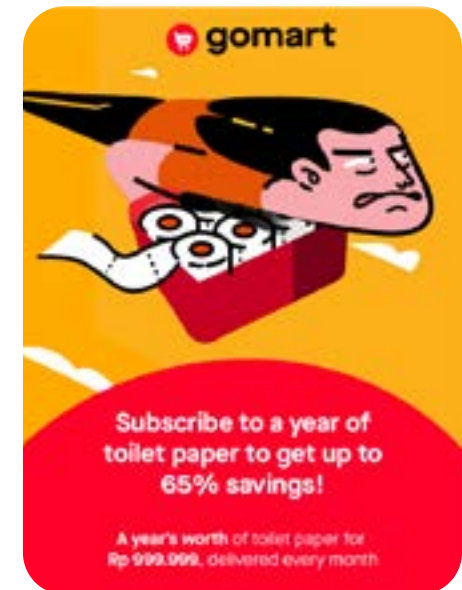

- E.g. Multi-merchant promo page at homepage

Automatically redeem

- E.g. Auto-applied promos during checkout (no need to apply manually)

Promos on bulk orders & refills

- E.g. Subscription plans, bulk promos

Out-of-category Inspiration

3 Maximized Value

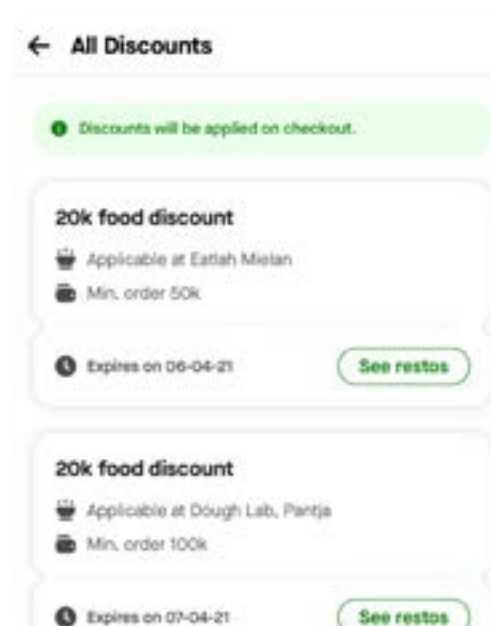

Getting the most for the least, while saving time and effort

Shopee's "4.4 discount Reminder" program

Add to Cart products that will be discounted on 4.4 ahead of time

GoFood's Auto-Applied Promo

Automatically redeem

Walmart's Bulk-sized Product Offerings

Bulk-sized, super-sized, bundles on daily products

In Sum, this proposition...

Get Consumers who plan their groceries expertly and in great detail so they can execute smoothly

To Believe that shopping for groceries with GoMart is seamless and effortless

By Highlighting our clever use of data & technology to simplify everything

So They have the freedom to care for their family

Insight

Caring for my household demands time & effort.
So when I shop for groceries, I plan perfectly so I can get it done efficiently

But stores/platforms are messy and unintuitive, they don't streamline the process

Proposition

GoMart, you can't shortcut care, but you can shortcut groceries

Using data and the most intuitive product experience to streamline groceries so you can shop effortlessly

Benefit

Saving your time, energy, and headspace for what truly requires your personal touch: caring for your family

Brand Key

1. Root Strength

- Born to solve groceries inefficiencies that create friction
- Passion to cut through complexities and simplify daily experiences for consumers

2. Competitive Environment

Offline & online groceries platforms

3. Target

Target:

Competent consumers who plan their groceries expertly and need to execute efficiently and seamlessly

Core demographic:

Visual comparison to help find the most relevant brand/ item/ price

Personalized promos

Automatically organizes your promos, vouchers based on eligibility and relevance

Curated deals

Discover promos that are only relevant to you

Online Minimarket:

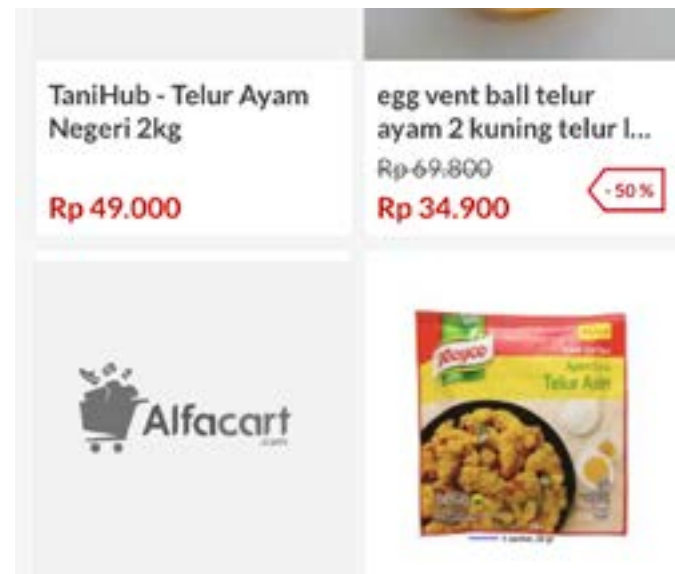

KlikIndomaret, Alfacart

Apps are non-intuitive and a hassle to use, appeal mainly to value

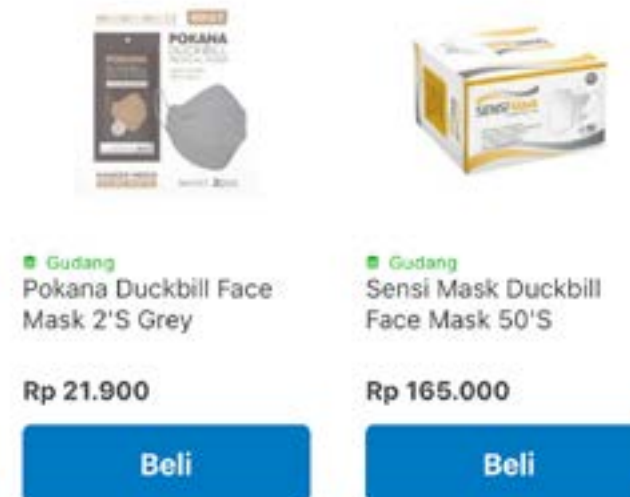

Basic /
Hygiene

Advance /
Unique

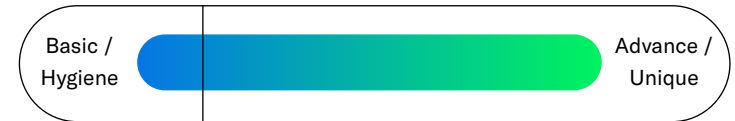

Alfacart: Different categories are lumped into one, inconsistent or incomplete listing

KlikIndomaret: Store is not integrated with inventory system. Hence, while products are listed as 'Available', it often don't ship to your area, or require multiple shipments from different DCs

KlikIndomaret, Alfacart

Apps are non-intuitive and a hassle to use, appeal mainly to value

1 Autonomous platform

Offers an abundance of categories but app is non-intuitive, making search & discovery a hassle

Auto-filled details

Checkout with just a few clicks

2 Effective & efficient communication

No means for communication other than a central centre/ in-app help centre that often leaves customers in the dark

Manual contact centre

Consumers must manually enter phone number, order details, questions/ issues

3 Maximized Value

Motivating promos that draw value-hunters

Personalized Promos

Unlocking of special promos during checkout to be directly added to your cart

Promo Page and Exclusive

Special Price items curated based on category to easily find relevant promos

1

Autonomous platform

Our first pillar is the least well-fulfilled by the category and requires the most innovation. A higher hanging fruit but a strong opportunity to differentiate.

	Pre-purchase: Search & Discover	During purchase: Adding things to cart	Post: Purchase & Payment
Happy Fresh	Personalized shortcuts		Auto-filled details
Sayurbox		Re-order button	Auto-filled details
GrabMart	Detailed categories & listing	Specify items easily	Auto-filled details
E-Commerce	Advanced search & filters	Re-order button	Auto-filled details
Online Minimarket			Auto-filled details

Several products to prioritize in our roadmap:

- Spell correction
 - EIM integration
 - Brand recommendation
- Personalization
 - SKU replacement
 - Weighted SKU
- Scheduled ordering
 - 4 wheel support

2 Effective communication

Some of our existing offering delivers to our second pillar but it needs to be enhanced to be on par with Happy Fresh

	Pre-purchase: Search & Discover	During purchase: Adding things to cart	Post: Purchase & Payment
Happy Fresh	Customization Preferences		
	Live Monitoring		
Sayurbox		Manual contact centre	
GrabMart		Multiple communication methods & medium	
E-Commerce	Designated Help Centres		
Online Minimarket		Manual contact centre	

Existing products to highlight:

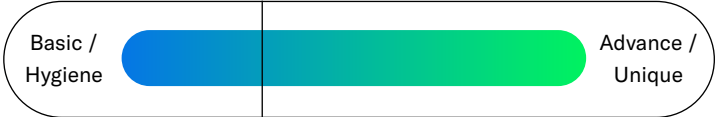

- Live tracking
- Driver-consumer chat/call /send pictures

Products to prioritize in roadmap:

- Shopper-consumer chat
- Shopper enhancement

3

Maximized Value

Third pillar: the category offers promos & deals but does not streamline access to them, something GoFood already does (auto-applied promos)

	Pre-purchase: Search & Discover	During purchase: Adding things to cart	Post: Purchase & Payment
Happy Fresh	Promo Page & Exclusive Deals		
Sayurbox		Exclusive Deals	
GrabMart	Promo Page & Exclusive Deals		
E-Commerce	Compare & Contrast Tools		Personalized Promos
	Promo Page & Exclusive Deals		
Online Minimarket	Promo Page & Exclusive Deals		Personalized Promos

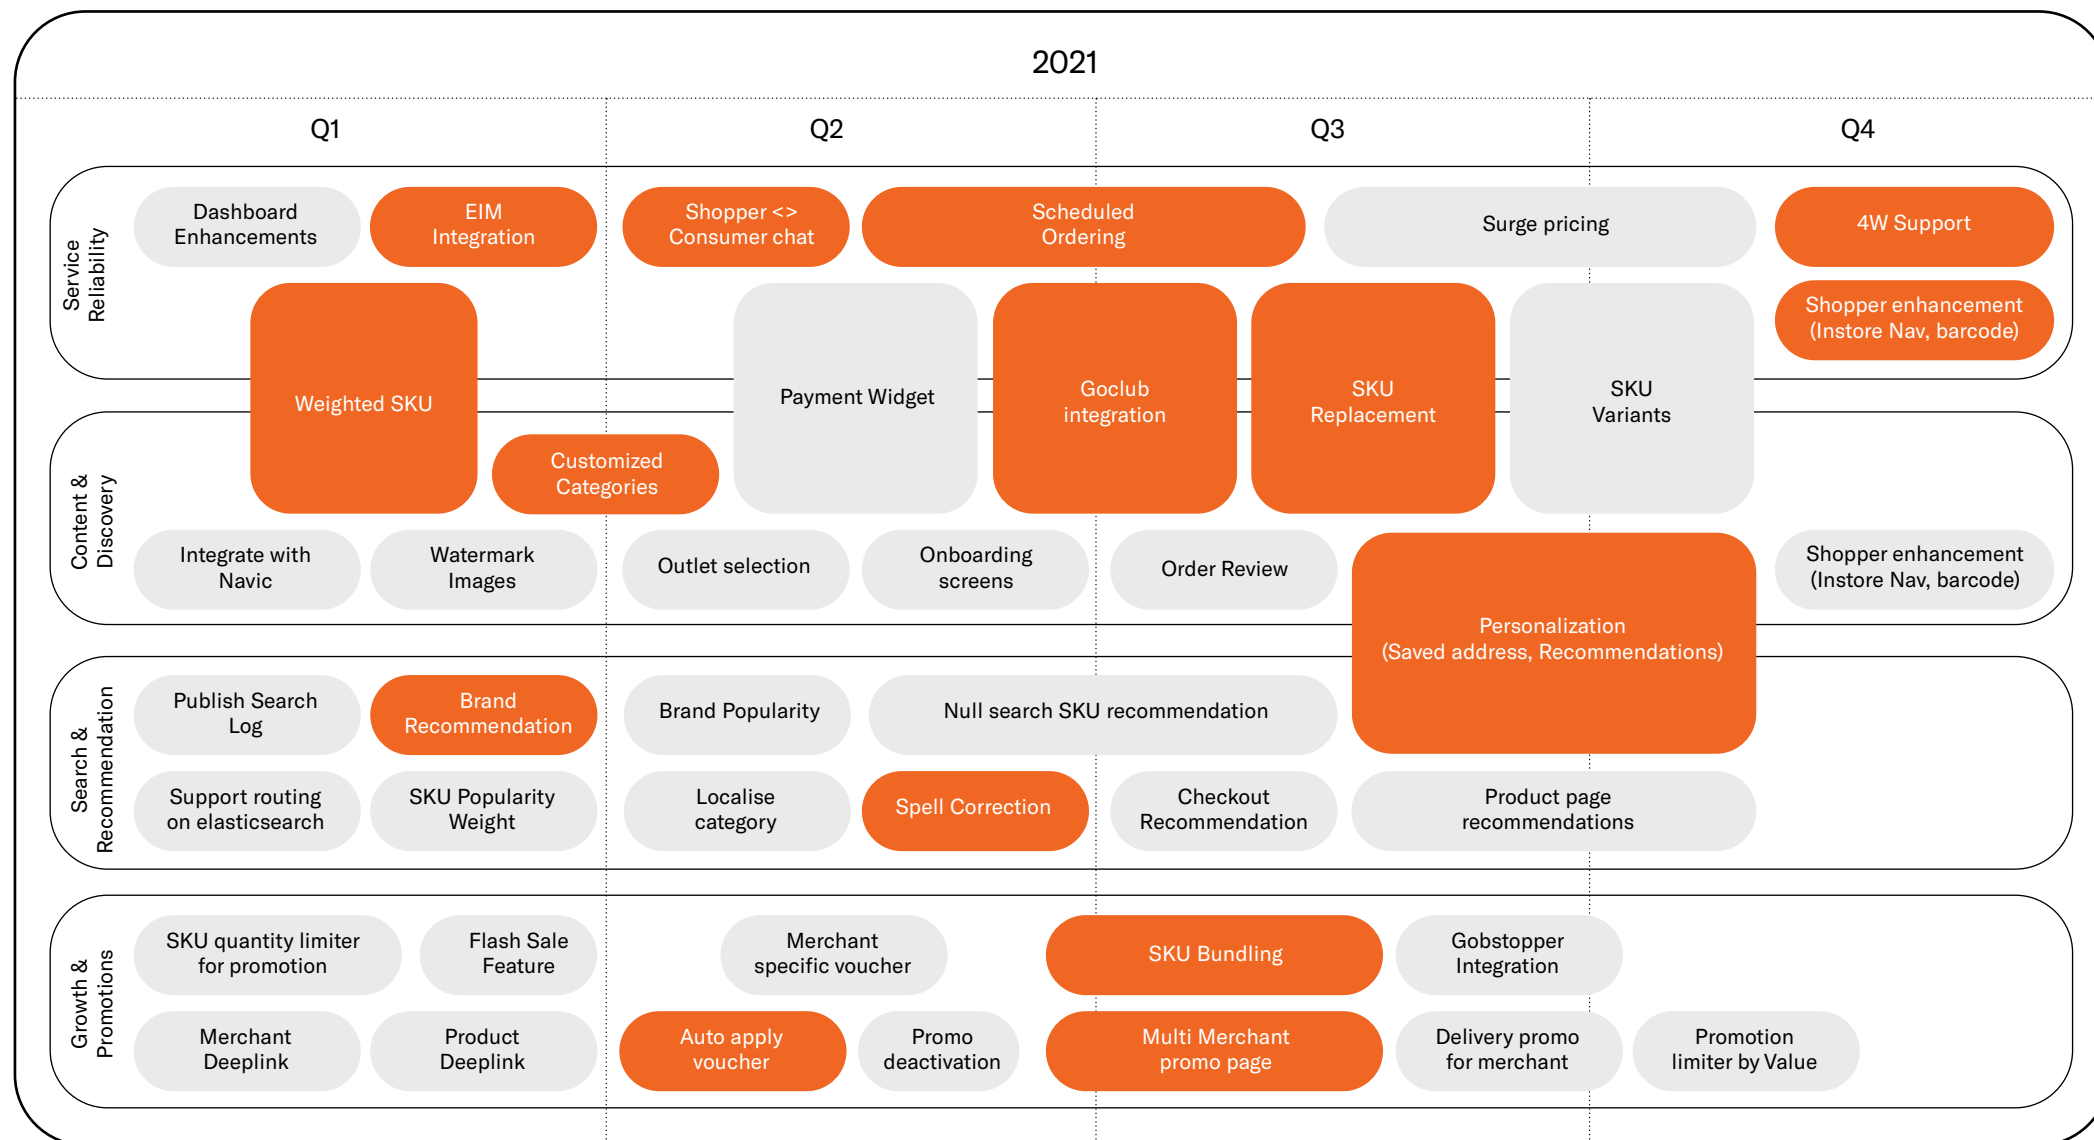

Products to prioritize in roadmap:

- GoClub Integration
 - Multi-merchant promo page
- Auto-applied voucher
 - SKU Bundling

Recap of products to prioritize in our roadmap

* Based on GoMart's ongoing feature development, March 2021

 Priority
 Less priority

03

**How might we
best express our
proposition?**

Campaign Guidelines

The principles and do's and don'ts when bringing to life our proposition

How might we express our proposition verbally & visually?

Values	Effectiveness	Innovation	Simplicity
Personality traits	Efficient	Resourceful	Easy-going
Tone of voice	Clear and direct	Witty and dynamic	Casual and Friendly
Design Principles	Simple To the point, easy to understand not overcrowded or over detailed	Expressive Fun, colorful and dynamic situations, body language	Relatable Visuals and illustrations should speak to consumers in their language

Our Audience and their truth:

The Competent Consumer

Principle

To best cater to their household, our competent consumers need to be the best at groceries

They are:

Expert and savvy consumers who are willing to go the extra mile to achieve their groceries mission, hence put a lot of time & effort into their plan

They aim to:

Care for their loved ones to the best of their ability

Hence, they need:

To be able to execute their plan smoothly & efficiently

Our Audience and their truth:

The Competent Consumer

Do's and Don'ts

✓ Do

Portray our audience as: competent, diligent, selfless and caring groceries masters

They are...

Competent groceries experts who are diligent planners and achievers

Selfless and caring: their motivation to deliver excellence is to care for others

✗ Don't

Portray our audience as: a helpless, careless or too individualistic

They are not...

Helpless, insecure, or clueless, in need of a saviour

Practical but careless or individualistic (just about getting things done for the sake of winning)

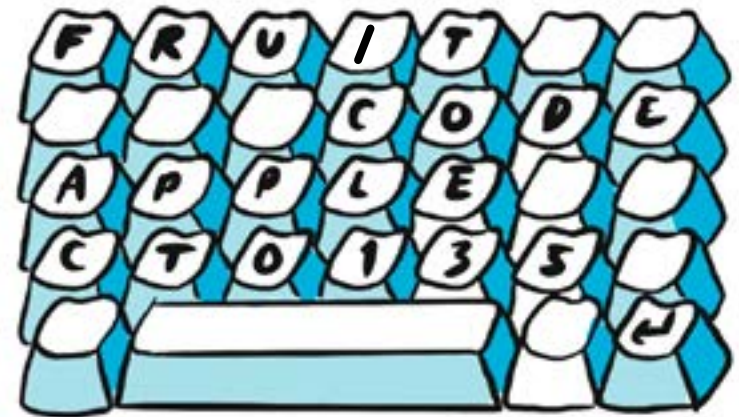

Insight:

Messy, unintuitive, inefficient groceries platforms

Principle

An overly complex way of doing things, when it could be simplified

It occurs when one single objective takes multiple steps or needs to be done manually when there could be a shortcut or automatized

Example: It's not just the long waits at the cashier but what is causing it: is it because the cashier must manually enter a product code for every new item?

Insight:

Messy, unintuitive, inefficient groceries platforms

Do's and Don'ts

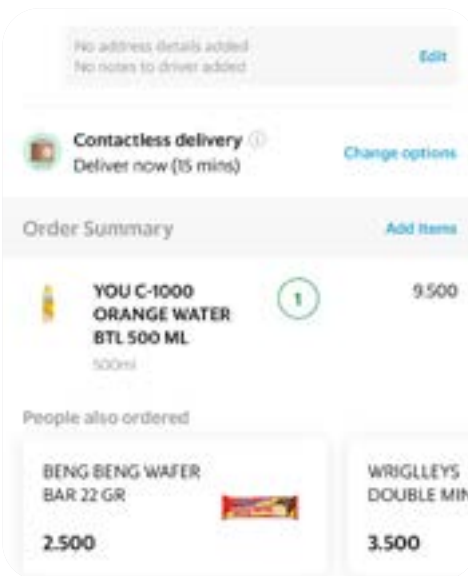

✓ Do

Portray frictions & inefficiencies as: unnecessarily complex processes that creates friction for consumers

It is...

Overcomplicating a process that could be much simpler

Overloading consumers with options and tools that are irrelevant to them

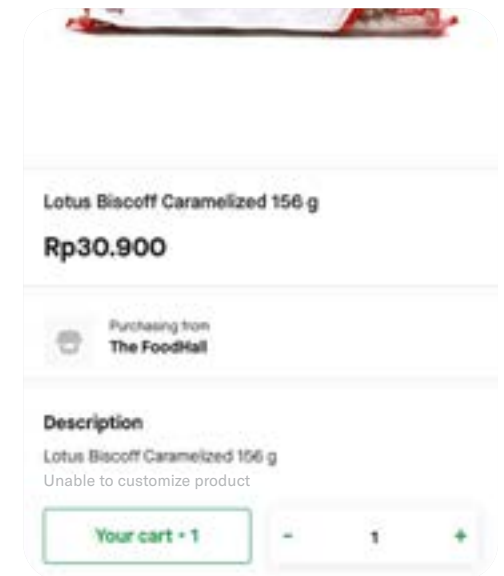

✗ Don't

Portray frictions & inefficiencies as: things simply being slow or rigid

It is not...

Having to wait too long for a service, or a delivery

Inflexibility to customize orders because of features that are too basic

Proposition:

Effortless Grocery Shopping

Principle

Streamlining groceries from search to delivery for a truly effortless experience, beyond just convenience

Focus on how GoMart streamlines complexities and cuts grocery shopping to the chase, beyond just the obvious benefits of online shopping.

Highlighting the 3 pillars of effortless:

1 Autonomous platform

Grocery shop in a breeze: intuitive, frictionless, simple

2 Effective Communication

Minimal communication and monitoring for an autonomous shopping experience

3 Maximized Value

A shortcut: the smart solution to get the most, for the least without all the hassle

Proposition:

Effortless Grocery Shopping

Do's and Don'ts

✓ Do

Display GoMart as: a platform that streamlines grocery shopping

It is...

A breeze: simple & smooth

✗ Don't

Display GoMart as: merely an easier and faster alternative to offline shopping

It is not...

Solely taking away the pains of offline shopping

Just an easy way to shop from home

Proposition:

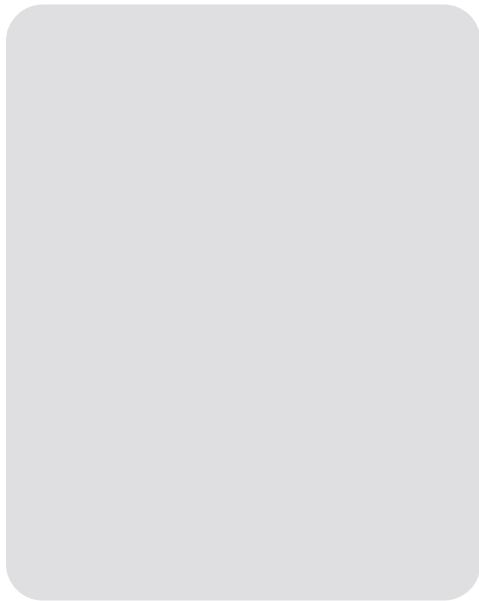

Effortless Grocery Shopping

Do's and Don'ts

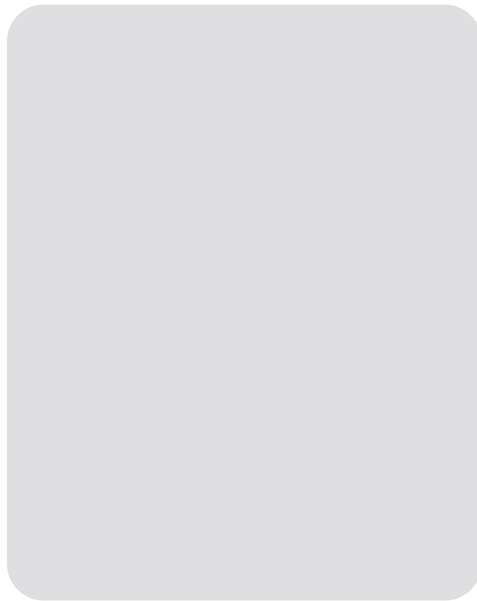

✓ Do

Portray Emak Jago as: a trusted shopper who makes everything seamless

She is...

An advisor who gives educated information and knows how to get things done efficiently

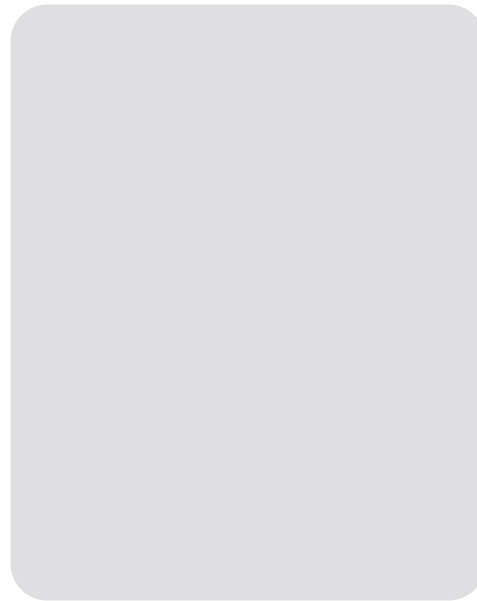

Helpful in relieving the load off consumers. communicates seamlessly & only when necessary

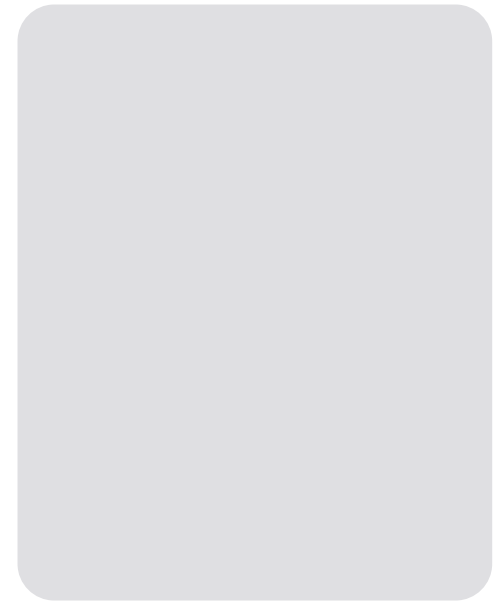

✗ Don't

Portray Emak Jago as: A superior shopper vs. the consumer

She is not...

More expert than the consumer

Overly advising or checking in on every detail of the order (more friction!)

Benefit:

**Functional: Saving
your time, energy, and
headspace for what truly
requires your personal
touch**

**Emotional: The freedom
to care for your family**

Principle

**GoMart handles what doesn't
require consumers' personal
touch, so they can save:**

Time

Shortening unnecessarily lengthy processes so time can be allocated to more crucial things (e.g. being available on time for after school family moment)

Energy

Removing complexities that require efforts and frictions that drain energy so consumers can go the extra mile on something that will truly make a difference (e.g. a carefully prepared meal)

Headspace

Alleviating some of the burden we all carry in our minds daily, allowing us to be fully present and connected when we care for our family

Benefit:

The time, energy and headspace to care better

Do's and Don'ts

✓ Do

Portray the benefit of effortless shopping as: the freedom to care better

It is...

Giving you the tools that enable you to provide better care

Removing mental load and makes you available to care

✗ Don't

Portray the benefit of effortless shopping as: simply a time-saver

It is not...

*"Bank Less,
Do More"*

Liberating you from a time-consuming task

About utilizing the extra time saved by not going to the supermarket

Out-of-Category Inspiration

How other categories communicate effortlessly

Square

Streamlines retail systems so small businesses can focus on their craft and growth

<https://squareup.com/>

Retail management is particularly challenging for small businesses: adequate systems are too expensive (therefore inaccessible), leaving them with basic, non-automated softwares that are full of frictions. E.g. multitude of excel sheets (inventory, sales...)

Square offers a sophisticated yet simple to operate toolkit to streamline the backends of business operations, specifically designed and priced for small businesses

Portrays small business owners as experts and masters at their craft

Highlighting real success stories from the small business community

Enables to achieve your mission more effortlessly

Streamlining processes and removing frictions and inefficiencies, not just a faster way of doing things

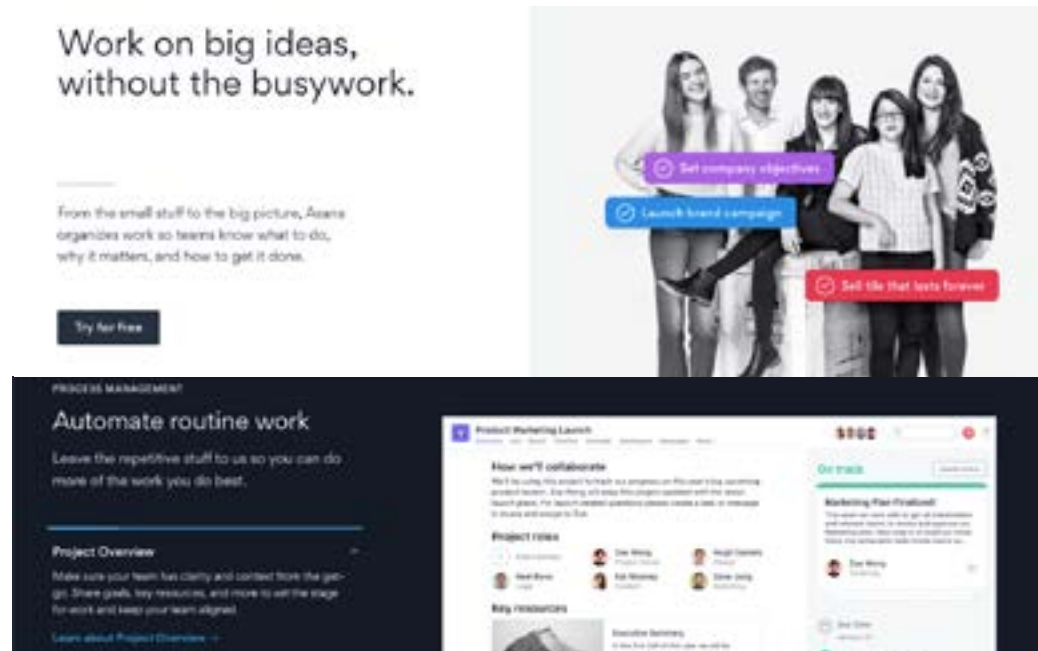

Communicates benefits beyond time-saving, but a tool for success

Square as the tool that enables you to have the time, energy, and headspace to focus on your goal, not just a time-saver

Asana

Streamlines your project management processes so you can focus on the bigger picture

<https://asana.com/>

Collaborative projects is challenging from multiple aspects. On top of the 'real' work that needs to be done, project set-up and management often take up a lot of time: it is laborious, menial, and filled with inefficiencies.

Asana is an online project management tool that automates, streamlines, and connects team members for a seamless collaboration, communication, and coordination from start to finish

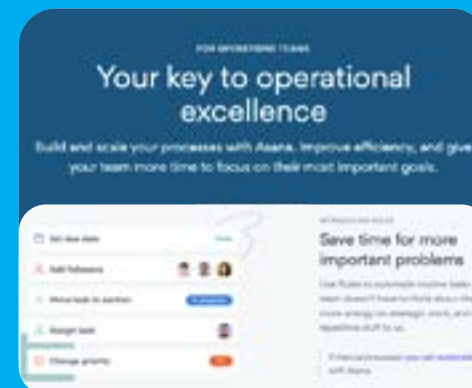

Illustrates how inefficiencies
create frictions to consumers' lives

It sacrifices things that are important to users, beyond just the frustrations over slowness or rigidity

- Establishes relevance across various demographics, use cases, and occasions

Show real examples of how Asana solve inefficiencies universally over various context and situations

Streamlines work that allows you to get the most, for the least

Asana allows you to work smarter, not harder: automating manual tasks so you can focus on things that require higher-order thinking

Paypal

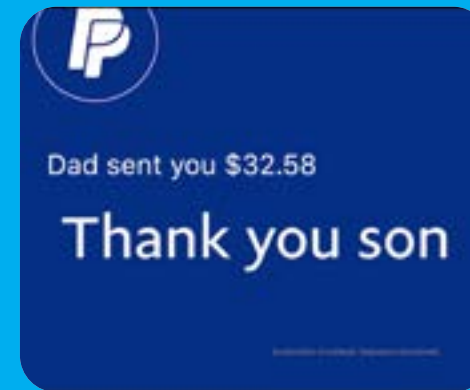

Simplifies everyday payment to make it easier for you to care, help, or gift others

<https://paypal.com/>
[Link to video](#)

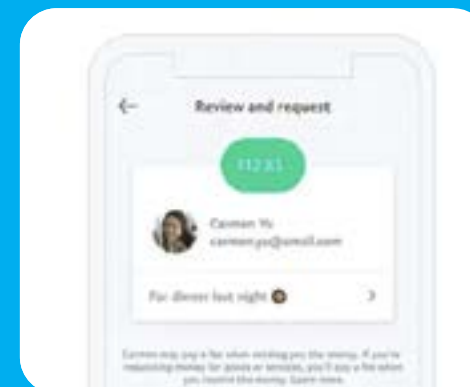

Sending, receiving, and collecting money used to be a hassle. It requires you to share your complete payment information — an inefficient process for simple, daily transactions. (e.g. sending a small amount of money to your friends, buying things online)

Paypal created a social payment platform that cuts through this inefficiency, facilitating easy and seamless transactions between friends and family. Now you can send money at no cost, even pooling money with a group of friends

Portrays users as a selfless and caring figure

All campaigns illustrate Paypal users using the service as means to care for others

Describes feature use cases as expressions of care

Continuously weaving in an affiliative element throughout their products and services

Removes friction so you can have the headspace to care

A seamless payment process that removes mental loads so you can be available to care, beyond just sparing extra time

Thank You
